Aries OPTIMA

Manually operated bed

BACKREST, THIGH AND LOWER LEG SECTIONS ADJUSTMENT

The bed features a mechanically adjustable backrest, thigh and lower leg sections that allows you to change positions for comfort and proper care, operating via a system of mechanical ratchets, enabling the user to manually select the desired angle of inclination.

CASTORS

This bed is equipped with four swivel castors withlocks, making it easier to move the bed in different settings without the risk of accidental movement, ensuring stability when locked.

HOLDERS FOR ADDITIONAL EQUIPMENT

Aries beds are standardly equipped with special sockets, located both on left and right side of the head section of bed frame. Holders enable assembly of additional equipment - lifting and transfusion pole.

SIDE RAILS

The rehabilitation bed is equipped with two-part adjustable rails, which can be customized to the needs of the user, providing additional safety and support when getting in or out of bed.
