

P25/P35

P25/P35 MATTRESS IS HIGHLY RECOMMENDED
IN ANTI-BEDSTORE PREVENTION.

General characteristic:

- Highly flexible hr foam (density 25kg/m³ or 35kg/m³)
- Elasticity and resistance to deformation
- Special construction – cuts in hr foam, which provide better air flow and improve blood supply in the body.
- Different hardness levels
- Cover with zipper (made of anti-allergic, vapour permeable and waterproof fabric)
- Oeko – tex 100 certificate
- Wet cleaning temperature: 95°C, dry-cleaning and ironing temperature: 150°C
- 2 Years guarantee
- Important: mattress suitable for beds with regulated mattress platform
