

# L-STYLE LUX

## Bedside table

### Split tabletop

L-Style LUX is a bedside table designed to meet demands for both comfort and functionality. In Lux version table top is divided in two parts: movable one, with 7 level adjustment of tilt angle, and fixed one. Tilting angle of 0° – 57°, makes it possible to use the table on both sides of the bed. Wide range of height adjustment makes L-Style LUX bedside table perfect choice not only for any type of the bed but also for personal patients requirements. Mobility is ensured by 4 castors base construction, where 2 of them have individual brakes option.

### Key features:

- Movable and fixed parts of table top
- Table top 7 level tilting angle
- 4 castors with 40mm diameter, two with brakes
- Colours available:

BEECH
