Aster electric

Reclining chair adjustable via remote control

RECLINE ADJUSTMENT

The chair with a recliner function can be set in two fixed positions: sitting and lying down. The recline adjustment is controlled using an ergonomic and intuitive remote control. The remote is placed in a side pocket of the chair.

FOLDING BACK TO A SITTING POSITION
(SIMULTANEOUS BACKREST LIFTING AND FOOTREST LOWERING)

RECLINING TO A LYING POSITION
(SIMULTANEOUS BACKREST TILTING AND FOOTREST LIFTING)

158kg

MOBILITY

Aster is a fully mobile chair, equipped with 4 TENTE bearing wheels (2 directional wheels and 2 wheels with locks) – enabling easy and convenient movement. Its compact dimensions (external width of 69 cm) allow it to pass through almost any door.

KOMFORT

The Aster chair is equipped with an ergonomic WINGS type backrest. The way it is shaped allows for comfortable and safe head support, which, combined with long and high armrests, provides not only comfort but also safety during sleep.

FUNCTIONALITY

The Aster chair in its standard version has a side pocket that the user can use to store small items and a larger rear pocket.
