

ControlCARE 02

Cut foam mattress

UP TO STAGE I and II (EPUAP)

Key features:

- Up to STAGE I and II (EPUAP)
- High-resilience polyurethane foam with special cuts insert
- Cover with zipper (made of anti-allergic, vapour permeable and waterproof fabric)
- Wet cleaning temperature: 95 °C
- Sterilization up to 120 °C
- Max. working load - 120kg
- Two years guarantee
- **Notice! Mattress is compatible with tilting and adjustable bed frames**

Waffle structure

The corrugated structure ensures optimal air circulation thanks to its free flow between the mattress and the patient's body surface. Combined with the use of high-resilience HR foam, which adapts to the patient's body and evenly distributes pressure, the ControlCARE 02 mattress is an optimal solution for the prevention and support in the treatment of stage I and II bedsores.

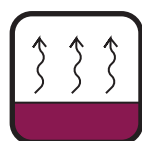

PU Cover 120 gr/m²

Equipped with a zipper, removable, waterproof, breathable, resistant to bacteria and fungi, flame-retardant. The cover is certified by OEKO-TEX.
