

Taurus 2 MINI LUX

Rehabilitation bed with reduced overall dimensions

Covered bed ends

The **Taurus 2 MINI LUX** bed is a rehabilitation bed with a reduced mattress platform width. It is a functional and compact solution designed for smaller rooms and for users who do not require a standard-width mattress. The narrower mattress platform makes it easier to manoeuvre the bed and organise the available space. Ideal for home care and medical facilities. The LUX version features enclosed bed end - covering construction and actuators.

- Reduced mattress platform width – while maintaining the functionality of a standard bed
- Four-section mattress platform
- Covered bed ends made of laminated board and solid beech wood
- Four castors (Ø 100 mm), each with an individual brake
- Easy to transport and store thanks to the use of a transport adapter
- Bed functions controlled via an ergonomic handset
- Wide choice of colour options
- Maximum safe working load: 215 kg
- 2-year warranty

Taurus 2 MINI LUX

Rehabilitation bed with reduced overall dimensions

Covered bed ends

BED ENDS

of the Taurus 2 MINI are made from laminated board and solid beech wood. In this model, the bed ends are enclosed; actuators and the bed's structure remain covered.

SIDE RAILS

Full-length side rails come as standard equipment in rehabilitation beds. Height can be increased by adding an optional side-rail extension. Models from the Taurus 2 MINI LUX series feature lowered side rails — when lowered, they are not felt by the patient while getting in or out of the bed. Rails are released by pressing a button located at the head of the bed.

FOR-SECTION MATTRESS PLATFORM

made of metal slats, easy to clean and disinfect. Backrest and thigh section adjustment is electrically operated via the hand control. The lower leg section is manually adjustable with a ratchet mechanism.

TRANSPORT ADAPTER - A system developed by Reha-Bed for convenient and safe bed transport. It facilitates easy movement and positioning of the bed within rooms.

ACCESSORY MOUNTING SOCKETS

The Taurus 2 MINI LUX bed comes with sockets located on both sides of the head section, allowing quick attachment of accessories such as a lifting pole or IV stand.

HAND CONTROL

An ergonomic hand control ensures comfortable operation and access to all bed adjustment functions. The controller is equipped with a function lock.
